Lotusphere
Connect 2013
Get social. Do business.

What's New in IBM iNotes & Notes

Agenda

- **IBM iNotes 9.0 SE What is new?**

- IBM Notes 9.1 What is new?

- Connections Files Integration

- IBM Verse On-Premises

IBM iNotes 9.0
Social Edition

Consumability:

- Abbreviated dates

- Quick find

- Vastly improved Calendar Create, Edit and Notice forms

- Calendar view improvements

- NEW dynamic Scheduler widget

- Import existing contacts from Microsoft® Outlook®

- Return Receipt generation control

- Paste images from clipboard (Firefox only)

- Drag 'n Drop attachments (HTML 5 APIs)

- Extensibility via Notes Widgets and Live Text (OpenSocial gadgets)

- Open widget content in new sidebar panels or tabs

- Secure attachment viewing (now on Greenhouse; planned for SmartCloud and on-premises)

- Relocate folders

Social integration:

- Embedded Experiences

- Activity Stream with "Updates" widget

- Connections Files integration

- IBM Social theme

Key 9.0 Social Edition Themes

- **User Experience Upgrades**

  - OneUI theme adoption

- **Social Integration and Extensibility**

  - Connections Files integration

  - Notes widgets improvements and Live Text

- **Consumability Improvements**

  - Calendar Area upgrades

  - Notes Browser plugin integration

  - Security improvements

- **Mobile**

  - Ultra-light mode supports newer browsers
  - Improved full-mode experience on tablets (unsupported)
IBM iNotes 9.0 Social Edition Demo

User Experience Upgrades

- **Adoption of IBM OneUI 3.0.x theme**
  - consistency with rest of IBM Social Portfolio
  - More spacing, reduced images, new color theme

- **New built-in global navigation (or masthead) area**
  - Global actions moved to current username dropdown

- **Search & search box improvements**
  - Selector in search bar to easily constrain search to some key fields (From, Subject, All)
  - Informational bar when displaying search results

- **Newer form designs limit display to just essential fields**

- **Improved cross-browser Attachments Area UI**

- **New visual design for Notes links (database, document & view links)**

- **Abbreviated dates within message list**

iNotes Global Actions

IBM Connections 4.0+ Integration

- Move or Copy received attachments to Connections Files

- Browse and insert Files links within the body of outgoing messages

- Automatically share Files links when sending messages
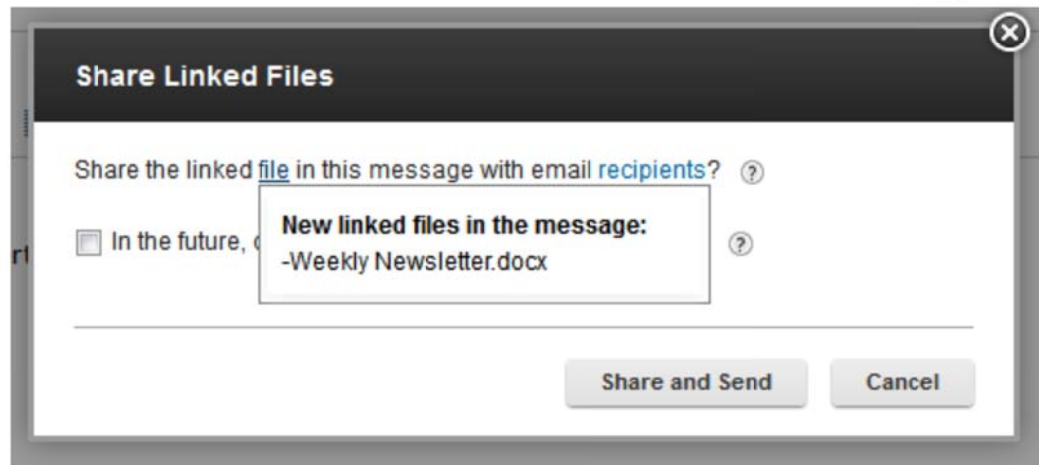

- Open IBM Connections via icon in global Navigation area

- Embedded Experiences within Connections notifications

- Supports IBM Connections Mail®

- Preview files without downloading

  - Requires upcoming release of IBM Connections

Quick access icons

IBM iNotes Embedded Application

Extensibility via Notes Widgets and Live Text

- **Honors Widgets settings in "Desktop Policies"**
  - Different set of widgets may be pushed to different users

- **New My Widgets sidebar panel**
  - Replaces prior entries in left outline
  - New browse widgets catalog experience
  - Drag and drop from catalog to install widgets
  - Open widgets in separate iNotes tab, separate window, floating window or new sidebar panel
  - Edit widget properties

- **Live Text capabilities are now available**
  - Invoke a single default action, or prompts when there are multiple available actions

- **Supports "Web" and "OpenSocial" widgets (including Embedded Applications)**

- **Requires installation of "OpenSocial component"**

11

Calendar View updates

Calendar Entry and Notices Form improvements

- **Dramatic performance improvements**
    - Now utilizes same "ultra-Ajax" framework used by Message form
    - Invitee opens meeting invitation from inbox ~ 50% savings
    - Chair creates a new calendar meeting ~ 30% savings

- **Simplified layout improves usability**

- **New scheduler control rivals Notes client experience**
    - Improved recommended meeting times
    - Drag and drop support
    - Include/exclude individual attendee availability

- **Leverages new improved attachments area**

▼ **Description**

IBM® Lotus® iNotes 8.5 software provides a security-rich messaging and collaboration platform for sharing data, connecting your employees and extended communities. It provides a Web browser alternative for accessing IBM Lotus Domino applications, including email calendar, and personal information management (PIM) capabilities, as well as instant messaging and presence awareness.

Lotus iNotes software helps organizations to:

- Integrate remote workers with critical data and applications, through a look and feel similar to the Lotus Notes® client with a layout customizable per user.

- Enable access to Lotus Domino-based applications, email, calendaring and scheduling and instant messaging - anywhere they can find an Internet connection.

- Send encrypted rich text email, schedule meetings, manage tasks and collaborate with colleagues-through their own workstations, Internet kiosks or PCs that belong to other users.

- Protect business-critical information through a variety of authentication options as well as encryption and digital signatures.

- Lower overall messaging solution costs through central administration, touting a low-touch to the desktop deployment model.

- Enhance your corporate portal with collaborative tools including messaging access via Lotus iNotes software.

Compose Meeting

Compare to older 8.5.3 Compose Meeting

Find Available Time (From Mail View or Calendar Entry Compose)
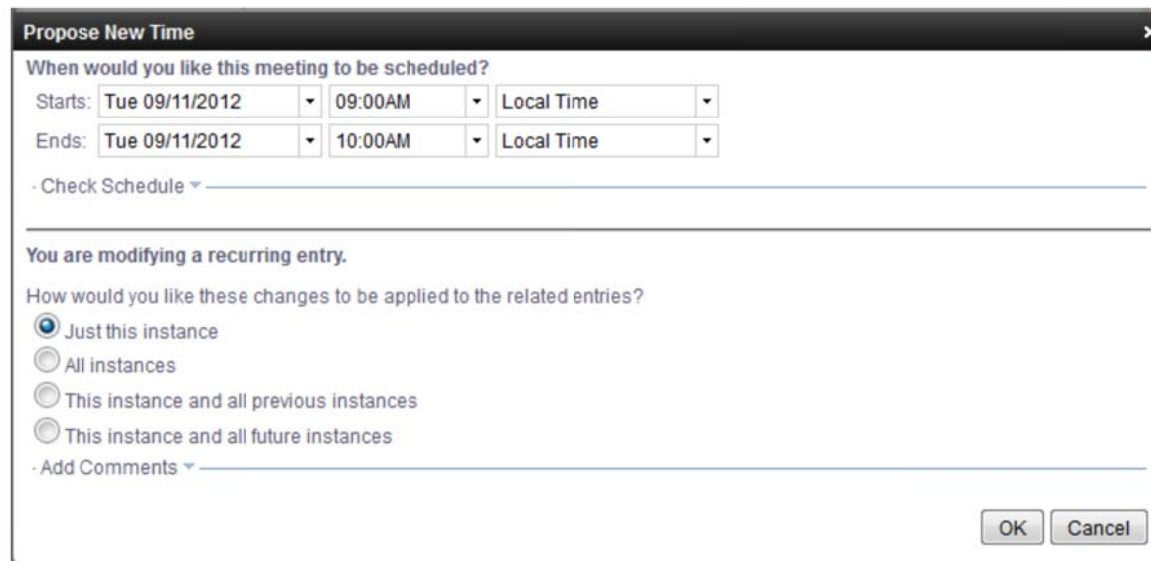

Calendar: Consolidated Workflow

- Combines several separate workflow dialogs into a single one

More Consumability Improvements

- **Paste clipboard images into rich text editor area**
  - Firefox® and Chrome™ today. Expecting Safari® to work with next major version.
  - Not possible with Internet Explorer® 10.
  - Images (smaller ones) may now be pasted within HTML signature field as well
- **Insert PNG images**
  - in addition to JPEG and GIF
- **Drag and drop files from operating system into attachments area (Firefox, Chrome and Safari)**
- **Import CSV contacts**
- **Save draft message (and keep editing)**
- **Asynchronous retrieval of unread message content (faster message opens)**
- **Move folder to a new location in folder hierarchy**

Additional 9.0 Features

- **Some default preferences are set (on first use of new template):**
  - Automatically process meeting updates and apply changes to calendar
  - Display unprocessed meetings within calendar

- **Security related**
  - SHA-2 S/MIME certificate support (more secure S/MIME messaging)
  - SAML-based authentication
  - OAuth support for displaying embedded experiences (requires EE plugin)

- **Full mode improvements to facilitate better experience from tablets (unsupported)**
  - Rich Text editor now enabled to facilitate forwarding "Rich" content
  - Checkbox selection available from list views

- **Control over Return Receipt generation**
  - iNotes_WA_SendReturnReceipt (0: Never; 1: Always [default]; 2: Prompt)

IBM iNotes

The sender is requesting a return receipt for this message. Send a receipt on your behalf?

IBM Notes 9.0
Social Edition

- Under development for 18+ months
- Overarching goals:
  - **Modern**
    - Use of current theming styles
    - Simplification and de-cluttering of interfaces
    - Integrated web experience – Notes Browser Plug-in®
    - Extensibility using the most current and stable web technology
  - **Easy-to-use**
    - Productivity feature enhancements
    - Easier discovery of capabilities
    - Default settings changes
  - **Socially-enabled**
    - Live social capabilities in email – "Embedded Experiences"
    - Social extensibility with the OpenSocial® platform
    - Expanded and updated IBM Connections® integration
- Leveraging the strength, commitment and clarity of the IBM brand
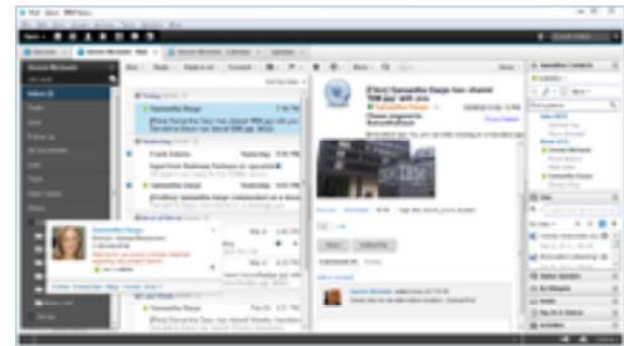

Connections Files Integration – Windows Explorer
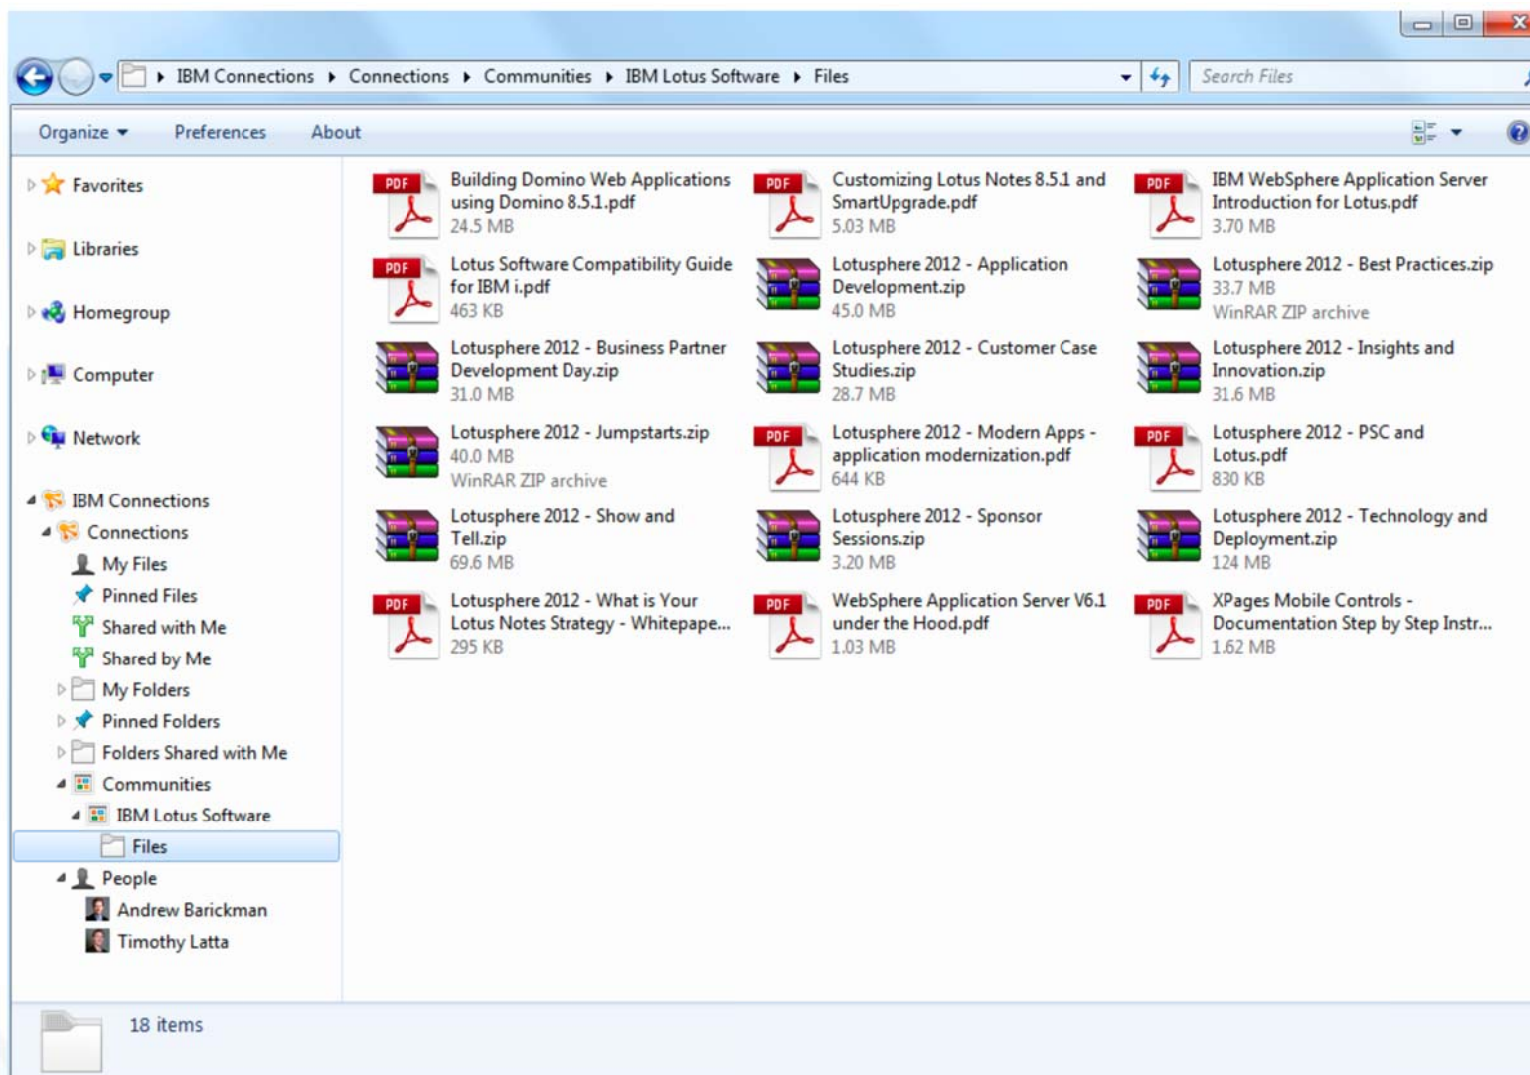

Connections Files Integration – iNotes & Notes

Future Roadmap

IBM Verse on-premises

If the text contains performance statistics or references to benchmarks, insert the following language; otherwise delete: Performance is based on measurements and projections using standard IBM benchmarks in a controlled environment. The actual throughput or performance that any user will experience will vary depending upon many factors, including considerations such as the amount of multiprogramming in the user's job stream, the I/O configuration, the storage configuration, and the workload processed. Therefore, no assurance can be given that an individual user will achieve results similar to those stated here.

If the text includes any customer examples, please confirm we have prior written approval from such customer and insert the following language; otherwise delete: All customer examples described are presented as illustrations of how those customers have used IBM products and the results they may have achieved. Actual environmental costs and performance characteristics may vary by customer.

Please review text for proper trademark attribution of IBM products. At first use, each product name must be the full name and include appropriate trademark symbols (e.g., IBM Lotus® Sametime® Unyte™). Subsequent references can drop "IBM" but should include the proper branding (e.g., Lotus Sametime Gateway, or WebSphere Application Server). Please refer to http://www.ibm.com/legal/copytrade.shtml for guidance on which trademarks require the ® or ™ symbol. Do not use abbreviations for IBM product names in your presentation. All product names must be used as adjectives rather than nouns. Please list all of the trademarks that you use in your presentation as follows; delete any not included in your presentation.Please review text for proper trademark attribution of IBM products.
